

AgilePM® Foundation and Practitioner

Developing your future project managers for tomorrow

Overview

Adopt a practical and repeatable methodology that achieves an ideal balance between the standards, rigour and visibility required for good project management, and the fast-pace, change and empowerment provided by Agile.

The course is delivered by Provek and follows the APMG International DSDM Agile Project Framework.

AgilePM® certification

Provek offer flexible training options for both AgilePM Foundation (2-day) and Practitioner (2-day)

- Public/open courses (virtual)
- In-house courses (virtual or face-to-face)
- The courses will offer the opportunity for candidates to discuss some of their own workplace challenges and share their experiences.
- Visit our website to for course delivery dates.

Learning outcomes

After these courses, delegates will be better able to understand:

- The underpinning philosophy and principles of Agile.
- The life-cycle of an Agile project, including alternative configurations.
- The products produced during an Agile project and their purpose.
- The techniques used and their benefits and limitations.
- The roles and responsibilities within an Agile project .

Who is the course suitable for

- AgilePM Foundation is aimed at practicing and aspiring project managers and agile team members who wish to become agile project managers.
- AgilePM Practitioner is aimed at project professionals and team members wishing to adopt a flexible, collaborative approach to project management, whilst improving standards, quality and pace of delivery.

“Provek have been an excellent and proactive provider to work with, delivering high quality training that has received great feedback”.

- Foundation exam: 40 minutes, 50 multiple-choice questions, passing score is 50%, closed book.
- Practitioner exam: 2.5 hours, four objective questions (20 possible points per question), passing score is 50%, open book (AgilePM® Handbook).

Course specification

Duration: Each course is two days

Timings: 9.00 a.m. to 5.00 p.m.

Price, dates & venue: Public courses are delivered virtually, in-house courses can be delivered virtually or face-to-face.

Course style: The course format is instructor led within a virtual classroom environment. This course is not to teach people how to be project managers but to enable them to demonstrate skills to develop solutions incrementally, and is intended for delegates with prior project experience.

Pre-course study: No pre-course study required.

Pre-requisites: Foundation – none; Practitioner - the Foundation qualification is a pre-requisite for Practitioner training.
