

APM Project Management Qualification (PMQ)

This comprehensive course is based on the Association for Project Management's Body of Knowledge 6th edition and covers the syllabus for the PMQ examination. It is designed to improve the skills of project management staff to enable them, through good project management practice, to make sound business decisions and thereby helping all projects to succeed. The examination is an internationally recognised qualification and comprises answering 10 questions from 16 in three hours with a pass mark of 55%.

Learning formats

Choose from the following learning formats to suit your needs. All formats require a considerable number of hours of individual effort outside of the classroom, which increases significantly from classroom to blended (mix of classroom and self-study) to directed self-study learning formats. Commitment of the individual to the appropriate level of self-study is essential for all learning formats.

Learning format	Classroom	Blended learning	Self-study
			
Classroom duration (including exam attendance)	5-day single event or 6-days in modules over 4 to 8 weeks	Directed self-study + 3-day classroom	Directed self-study + 0.5-day classroom

Who should attend?

- Project managers who have not had formal best-practice project management training.
- Prospective work package managers, project managers or other key project personnel looking to develop their project management career skills.
- Project managers wishing to attain a formal, and widely recognised, project management qualification.

Pre-requisites

Good project management basic skills or attendance on the APM Project Fundamentals Qualification (PFQ) course plus ideally a minimum of 6 months actual experience of working on a project. We recommend delegates take Provek's free online PMA6 Lite assessment to help assess readiness and suitability for the APMP Certificate course and exam. This assessment identifies the delegate's existing knowledge and experience and recommends the appropriate level of training required (www.provek.co.uk – Project Management Assessment).
