

## APM Project Fundamentals Qualification - PFQ

The APM Project Fundamentals Qualification in Project Management (PFQ) is a qualification that is designed for those embarking on a project management career or individuals who require recognition for their general project management knowledge and awareness. It is based on the Association for Project Management's Body of Knowledge and covers the syllabus for the APM Project Fundamentals examination. Candidates will take a one hour 60 question, multiple choice exam paper at the end of the training course which has a pass mark of 60%.
